20nidhi23@gmail.com  Sahibabad, Uttar Pradesh

PROFESSIONAL SUMMARY:

Full Stack Web Developer with expertise in HTML, CSS, JavaScript, React, Node.js, and Express.js. Skilled in creating functional web applications and integrating frontend and backend components. Experienced in Android Development, Flutter, Dart, and Web3/blockchain technologies. Currently a Software Engineer at Circle of Games, contributing to mobile app development and build processes. Committed to continuous learning and staying updated with the latest development trends.

EDUCATION:

Full Stack Web Development

Masai School

July 2023 - April 2024

Bengaluru , Karnataka

Bachelor of Commerce(B.Com)

Delhi University

November 2020 - May 2023

Delhi

WORK EXPERIENCE:

Circle of games

Software Engineer (Full-Time)

December 2024-present

- Developed and enhanced the Circle of Games app, focusing on UX improvements, which significantly improved the user experience and increased user retention.
- Leveraged Web3 technologies for innovative solutions, integrating Blockchain in the app for a decentralized gaming ecosystem, showcasing proficiency in utilizing cutting-edge technologies.
- Managed sprint cycles and collaborated with cross-functional teams to ensure timely project delivery and alignment with company objectives.
- Conducted thorough QA testing to maintain high-quality standards, proactively identifying and resolving issues to enhance efficiency and reduce deployment times.
- Optimized app performance by identifying bottlenecks and implementing solutions that improved load times, responsiveness, and overall user satisfaction across multiple devices.

Circle of Games

Software Engineer (Intern)

June 2024 - November 2024

- Collaborated with senior engineers and designers to meet project requirements, enhancing teamwork skills and understanding of the development process.

- Participated in code reviews, providing feedback that led to improved code quality and better understanding of software best practices.
- Supported the integration of new technologies and tools, demonstrating adaptability and a proactive approach to staying at the forefront of development trends.

PROJECTS:

Quiz Me

- Developed a comprehensive quiz application with user authentication, quiz management, and result tracking functionalities.
- Implemented role-based access control to ensure security and data integrity.
- Utilized the MERN stack including React, Node.js, Express.js, and MongoDB for full stack development.
- Implemented CRUD operations to manage questions and quizzes efficiently.
- Designed multi-level user access controls and sorting mechanisms for enhanced user experience.

Tech Stack:

React | Redux | Node.js | Express.js | MongoDB

Bon Voyage

- Architected a full-stack travel website with a focus on user registration and authentication.
- Collaborated in a team of 5 to develop an online vacation booking platform using React.
- Focused on creating a dynamic and expandable admin panel for package management.
- Enabled features like package filtering and user reviews to improve user interaction.
- Streamlined a seamless booking experience through dedicated booking pages and user support.

Tech Stack:

HTML5 | CSS3 | JavaScript | Redux | React | Responsive Web Design | Git
